We will be learning...

LITERACY

The children will be entering the most wonderful world of pirates. They will be writing a narrative story based on pirates as well as using the theme to write a persuasive advert to hire a pirate. This will then be followed up with an instruction manual on 'How to be a good Pirate'.

We hope to visit a pirate castle to learn more about pirates.

NUMERACY

During our math's lessons, we will be focusing on using the four operations to solve word problems as well as weekly investigations. We will be measuring weight, length and capacity through practical activities. Each Friday there will be a mental math's test.

Our Geography focus this term is Coastal Alaska, we will be learning to use geographical skills like map reading, identifying features of the landscape and weather and comparing this to our local area.

In Science we will focus on habitats. The children will identify different habitats and research into different animal habitats. They will also write a report about this.

Computing We will be learning how to program robots and use simple algorithms to solve problems.

Music Children will continue to participate in weekly singing assemblies and develop their drumming skills with an experienced musician. We hope to perform to the school.
