ARTSPOKES, a local social enterprise based in Limehouse, is rolling out its Creative ICT and Best Bikers projects to primary schools in the borough.

ArtSpokes encourages young people to have a voice through art. Best Bikers puts cycling, the environment and healthy living centre stage, encouraging a cycling culture and a safe and positive approach to active travel in school.

Students from Cyril Jackson Primary School recently finished the project in which they created posters to encourage cycling with bike lights

The Creative ICT projects also make any subject or theme interesting, fun and relevant for children, from encouraging healthy packed lunches, to internet safety, to a curriculum topic such as the Tudors.

Primary schools wanting to take part in an ArtSpokes project should email admin@artspokes.com
